

Kickstarting AgentVault's First 50 Users

Submitted by: AAISHA SHEIKH

1. Target User Segments

A. Crypto Traders

I think crypto traders should be one of the first groups to target because they are already interested in crypto and are always looking for better tools.

Their main problem is that the crypto market changes very fast. It can be difficult to keep track of prices, news, and trading opportunities. AgentVault can help by giving useful AI-powered insights and saving time.

Where I would find them:

- X (Twitter)
- Discord groups
- Telegram groups
- Reddit communities

B. College Students Interested in Crypto

Many college students are interested in crypto and investing. They like trying new technology and learning new things.

Their main problem is that crypto can be confusing for beginners. There is a lot of information online, and it is hard to know what is useful. AgentVault can help them understand the market more easily.

Where I would find them:

- College blockchain clubs
- LinkedIn groups
- College events
- Discord communities

2. Sample Outreach Message

Hi,

I saw that you are interested in crypto.

I am helping to promote AgentVault, an AI-powered crypto trading assistant. It helps users stay updated with market trends and find trading opportunities.

We are looking for a few early users to try the platform and share their feedback.

Would you be interested in giving it a try?

Thank you!

3. GTM Ideas

Idea 1: Work with College Clubs

Contact blockchain and finance clubs in colleges and offer their members early access to AgentVault. Students can give useful feedback and help spread the word.

Idea 2: Referral Program

Give rewards to users who invite their friends to join AgentVault. This can help increase the number of users quickly.

Idea 3: Crypto Meme Contest

Organize a meme contest on X (Twitter) and Discord. This can attract attention and help more people learn about AgentVault.

Why These Ideas?

These ideas are simple, low-cost, and easy to implement. They focus on people who are already interested in crypto and can help AgentVault get its first users and valuable feedback.
